## PROJECTS

MarketGrabber differs from other benchmarking platforms in its tight focus on lows.

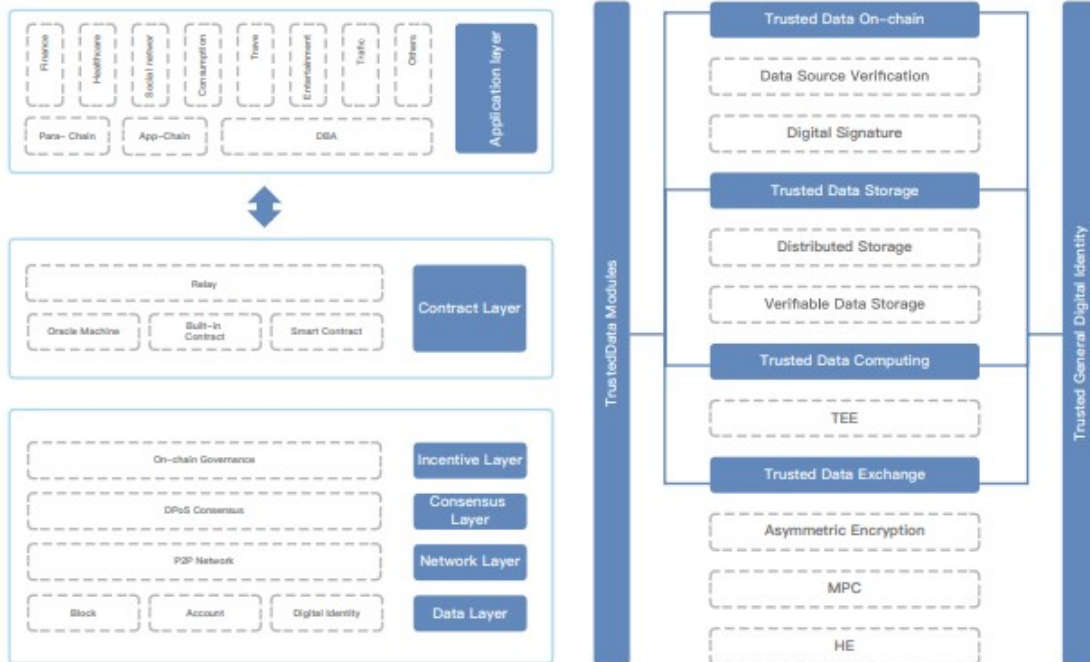

Market value projects - i.e. projects that can provide market value

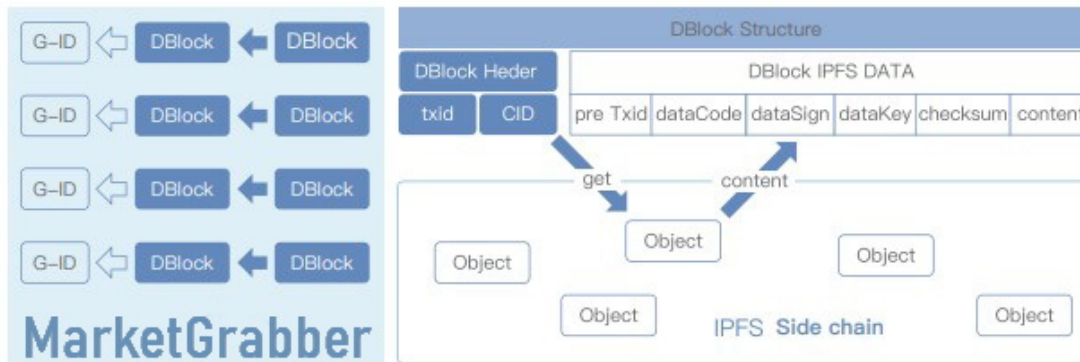

Investors with the largest return on investment (return on investment).

Seamless Trading Platform

## Technical Structure

Current problems of data management	Blockchain Solutions	Features of MarketGrabber Solution
<p><b>Data Breaches</b></p> <p>Date breaches and privacy hacks are not rare the current tech monopoly era.</p>	<p><b>Retrieve Data Ownership</b></p> <p>-MGRT- provides a new way for users to collect and manage their data themselves.</p>	<p><b>General Identity (G-ID)</b></p> <p>G-ID is unique and tamperproof, which may function as the passport to various blockchain dApps.</p>
<p><b>Cannot Earn</b></p> <p>Tech giants and black-market data peddlers take the profitability of data from users to whom the data rightfully belongs.</p>	<p><b>Retrieve Decision Right</b></p> <p>Using a Data-Key, users can now decide who can use their data.</p>	<p><b>Encrypted Data Storage and Data Uncached</b></p> <p>Authorized data will go through asymmetrical encryption and be stored at the sidechain. The -MGRT- does not cache any data.</p>
<p><b>False Data Ownership</b></p> <p>Big companies claim that users' data belongs to the companies, which is not right or ethical.</p>	<p><b>Retrieve Right to Earn</b></p> <p>Users now control the right to earn from their data and make a profit from authorization every time.</p>	<p><b>Decentralized Data Management</b></p> <p>Users' Data-Key is stored at the local client, which cannot be used by others.</p>

MarketGrabber is fully integrated with most Swap trading interfaces. This, Investors with the ability to instantly decide on the tokens listed on Swap Exchanges and rating sites maximum safe way without having to leave the platform.

Reliable Risk Score Assessment

The platform collects data from multiple sources and uses it to determine.

if projects are secure in a simplified way - you will never again have to rely on low-quality data from a single source

future that includes being able to use the DEX interface to trade-in mini caps platform

## **WHAT IS THE DIFFERENCE BETWEEN MARKETGRABBER AND OTHERS?**

### **MARKETGRABBER?**

MARKETGRABBER is the Management token of the crypto listing platform MarketGrabber. world's first:

Anti-Fraud Crypto Listing/Comparison Center dedicated to Low Market Cap Tokens.

## WHAT DOES MARKETGRABBER DO EXACTLY?

Our main goal is to create a SALT SAFE AND CONTROLLABLE AND MEASURABLE platform for their low market value/Security integration projects.

Using unique and clear tools to enhance the most important aspects in the decentralized finance world – Trust and Security.

## THE DIFFERENCE BETWEEN MANY SWAPS AND PLATFORMS

LIKE CMC AND CG?

We all know that small market cap projects get overwhelmed by the big ones on the charts.

Websites like CMC and CG. They also get involved with scam projects on smaller websites.

Like CS and CH so they get less visibility than they deserve.

Minicaps provide a platform for small market cap projects while also mitigating risks.

for investors.

WHITE PAPER
